

## Customize Screen Explanation for Screen

This guide will explain in detail every function of the screen customization window.

	<p>These are the customizable buttons. You can set these buttons to do 1 of 4 actions which will be explained below. You can have an unlimited amount of customizable buttons in Cornerstore. You can attach images to them as well. In use, you would press these buttons as you would any other.</p> <p>To modify a button, select the button you would like to change.</p>
<p>Previous      Next</p>	<p>Use these buttons to navigate through the columns of buttons. Only 20 buttons can be on the screen at once.</p>
<p>Add Button</p>	<p>Adds a button to the total amount of buttons</p>
<p>Function Type <input type="text"/></p>	<p>This is where you select what a button does, below will explain what each function does.</p>
<p>Inventory Item</p>	<p>This connects one inventory item to a button.</p>
<p>Department</p>	<p>When you press a department button, it brings up a window with every item in that department to select the proper inventory item.</p>

Variable Price Department	When you select the button, it will bring up a numberpad to enter in the price of the inventory item that will be rung up.
Variable Price Payout	When you select this button, it will bring up a numberpad to enter in the amount that you will be giving out. This can be used to give out money for things such as lotto winnings.
<b>Item No</b> <input data-bbox="394 425 730 477" type="text"/>	This will appear for Inventory Item, Variable Price Department, or Variable Price Payout. Enter or scan in the item number, or you can search for it using the button below.
	When you click this button it brings up a window (shown below) to help you find your item by name or barcode.
<b>Display Text</b> <input data-bbox="411 714 743 766" type="text"/>	Enter in this field what you want your button to say.
	If you want to put an image on one of the custom buttons, click this button to browse your computer for the image. NOTE: If the image destination ever moves, such as desktop to another folder, you will need to find it again through cornerstore.
	Press this button to save any changes you have made to the buttons.
