HP Imaging Barcode Scanner

The HP Imaging Barcode scanner is compatible with CornerStore and any non-wireless computer. This document will show you how to program your scanner to read barcodes the way they are formatted in your Corner Store POS database.

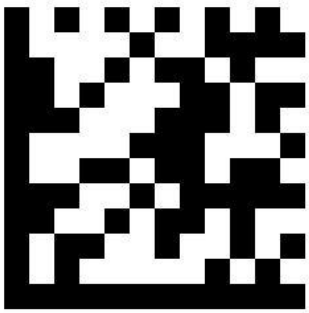
This barcode is to **reset** your barcode scanner to default settings

Standard Default

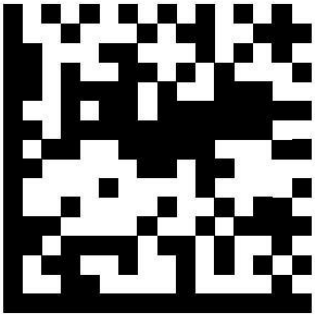
Carriage Return (simulates Enter key) - Use this when you scan a barcode and have to press enter to get the item # onto the invoice grid

Suffix of CR

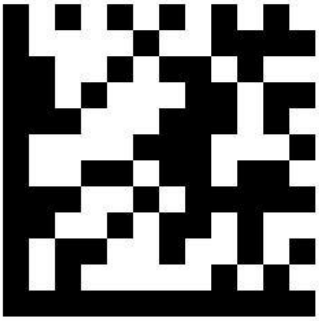
If you want your scanner to operate in Stand Mode scan these barcodes in the following order



1



2



3

Scan these in the numbered order to get the settings you'd want
