## Installation instructions for the COGNITIVE Label printer with Corner Store POS

Corner Store POS supports COGNITIVE label printer. This document will detail the process of installing the label printer and configure it to properly work with the Corner Store POS.

## Creating a Generic/Text only driver

**NOTE: There are no specific drivers needed to install the printer.**

1. Plug the printer into the power outlet.
2. Connect printer with the computer and turn it on.
3. Now select **Start** from the left bottom of the computer screen.

4. Select **Control Panel**.

5. Select **Printers and Faxes**.

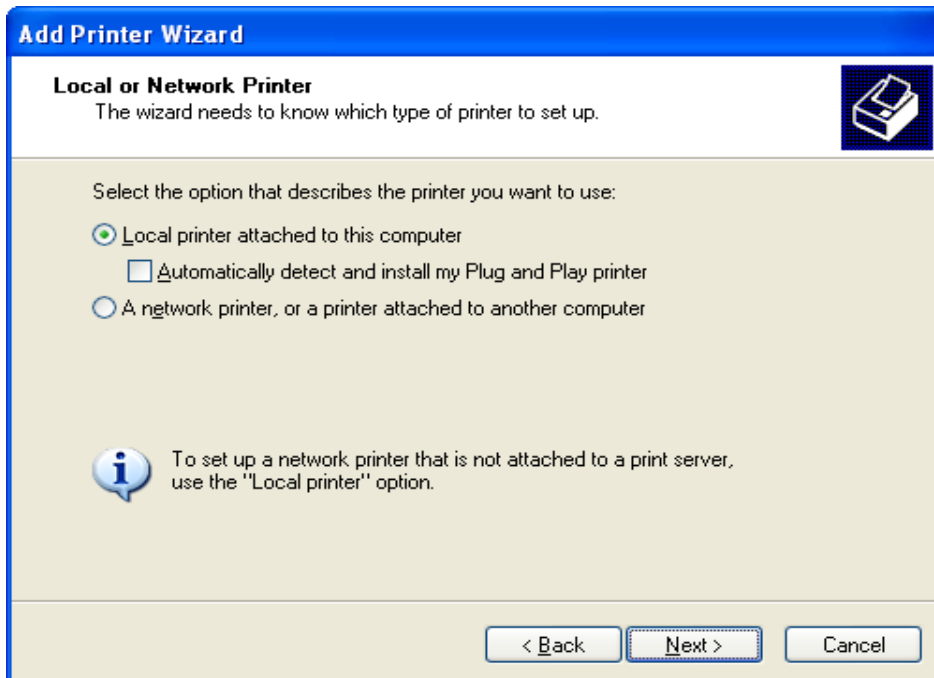

6. Select **Add a printer**.

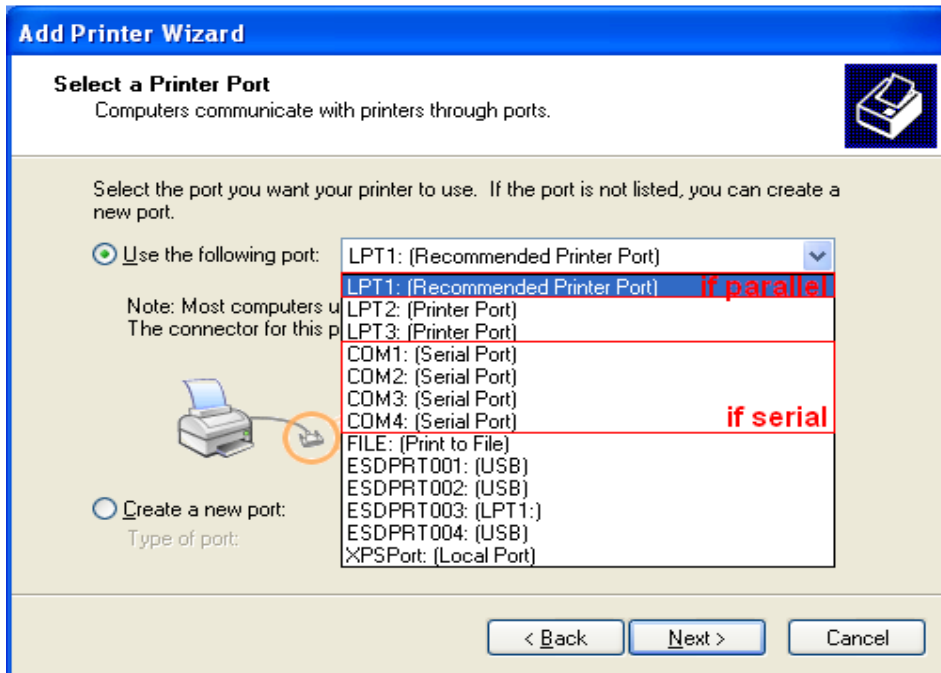

7. Select **Next**.

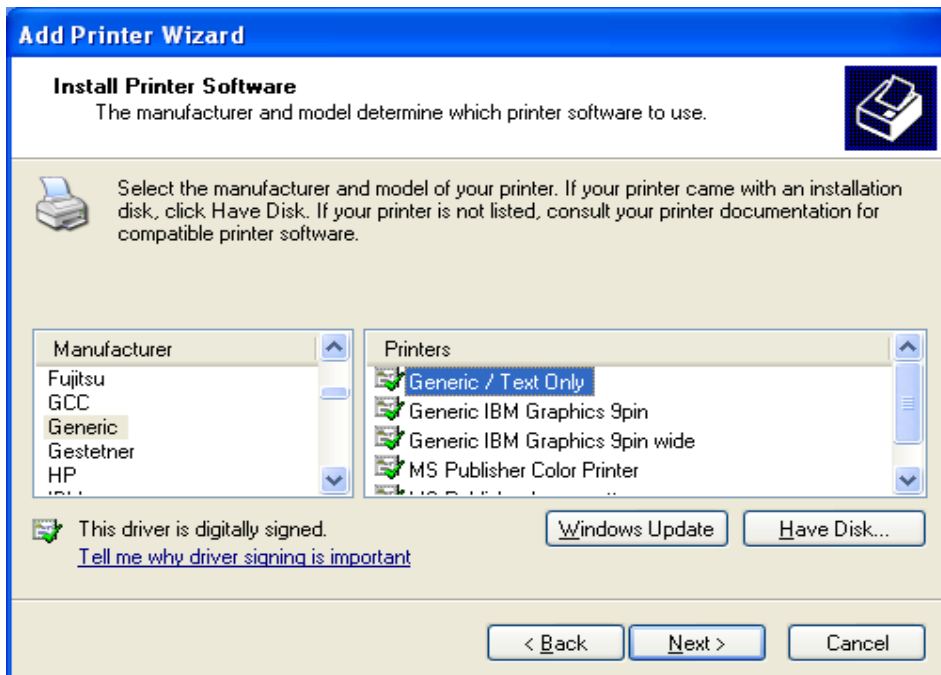

8. Select **Local printer attached to the computer**. And, uncheck **Automatically detect and install my Plug and Play printer**. Select **Next**.

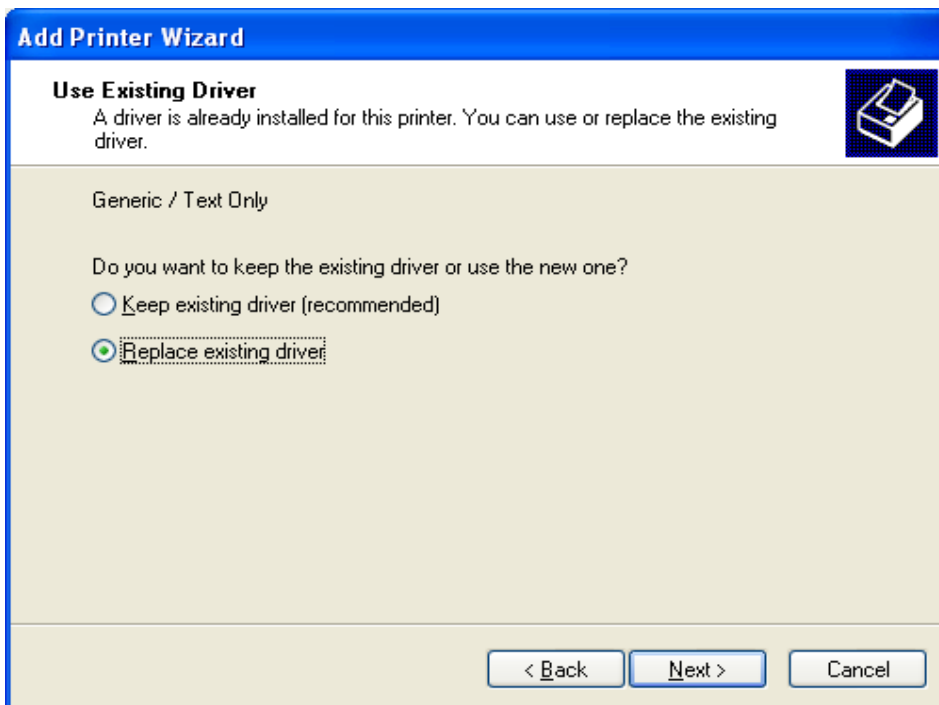

9. Select **Use the following port**. Then, using the dropdown, select the correct port.
  - a. If your printer plugged into a parallel port, select LPT1.
  - b. If it is plugged into a serial port, select the appropriate COM port.Select **Next**.

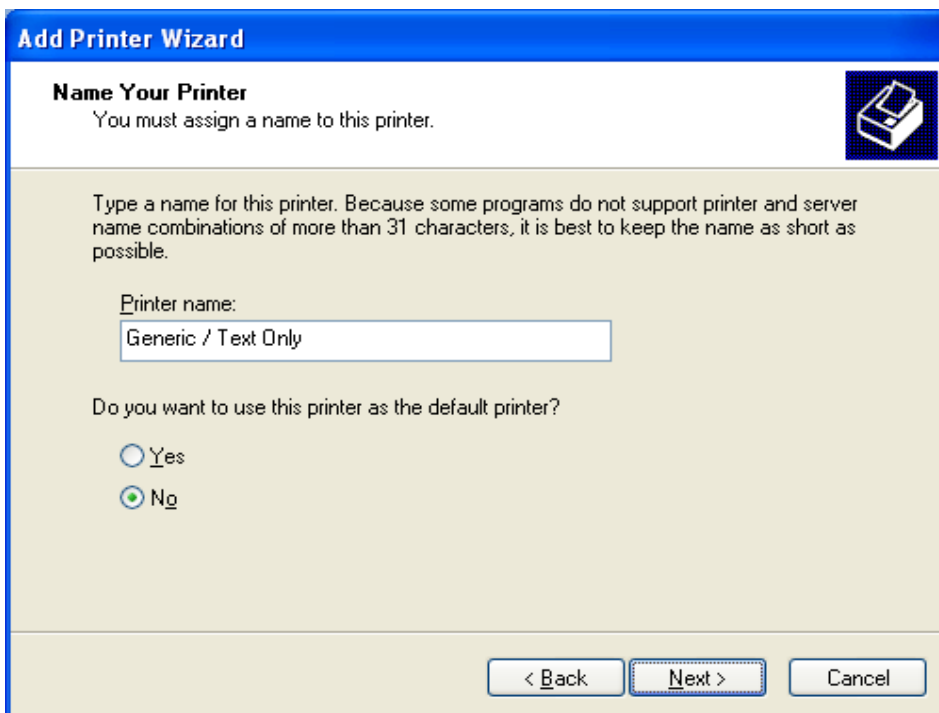

10. Select **Generic** from the list on the left. Select **Generic/Text Only** from the list on the right. Click on **Next**.

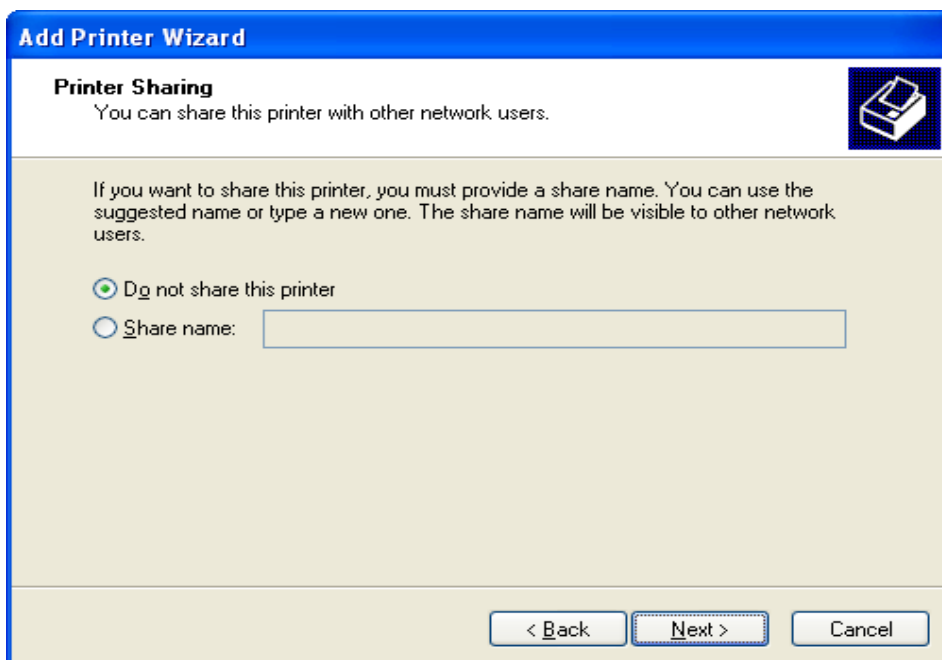

11. Select **'Replace existing driver'** and click on **Next**.

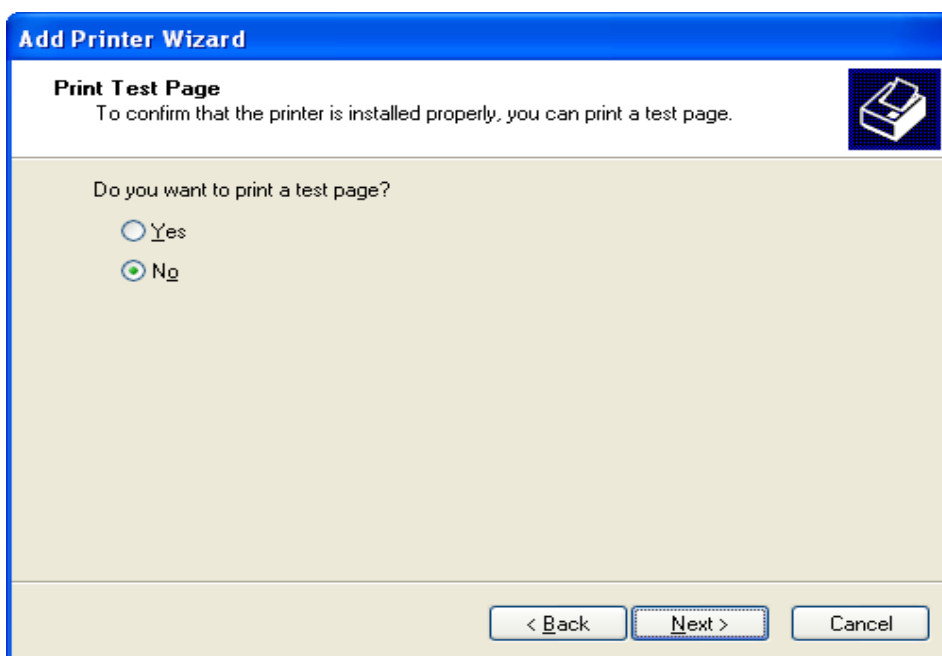

12. Select the **'No'** option and click on **Next**.

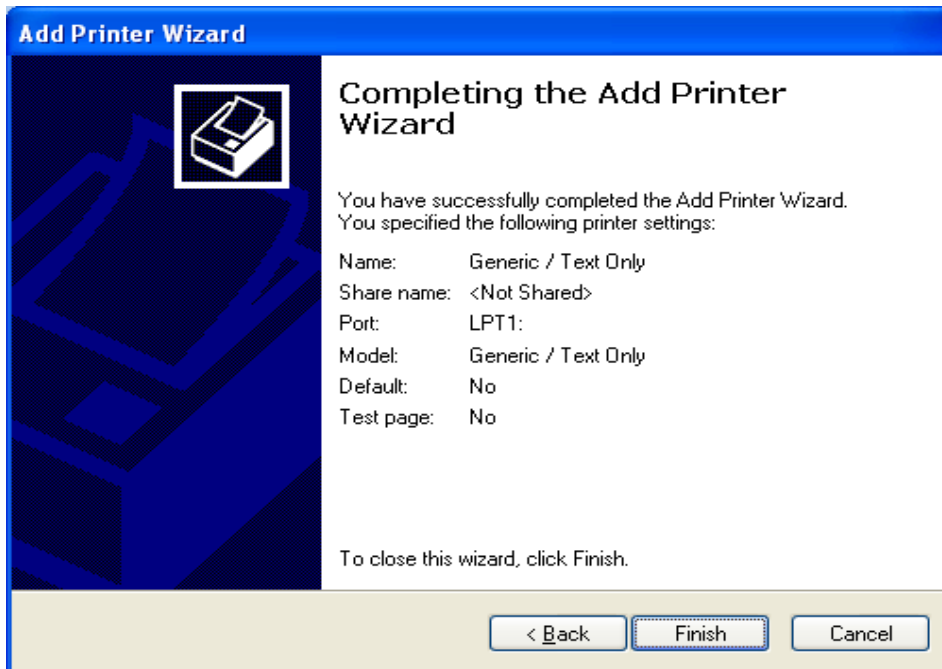

13. Select **Do not share this printer**. And click on **Next**.

14. Select **No** option. And, click on **Next**.

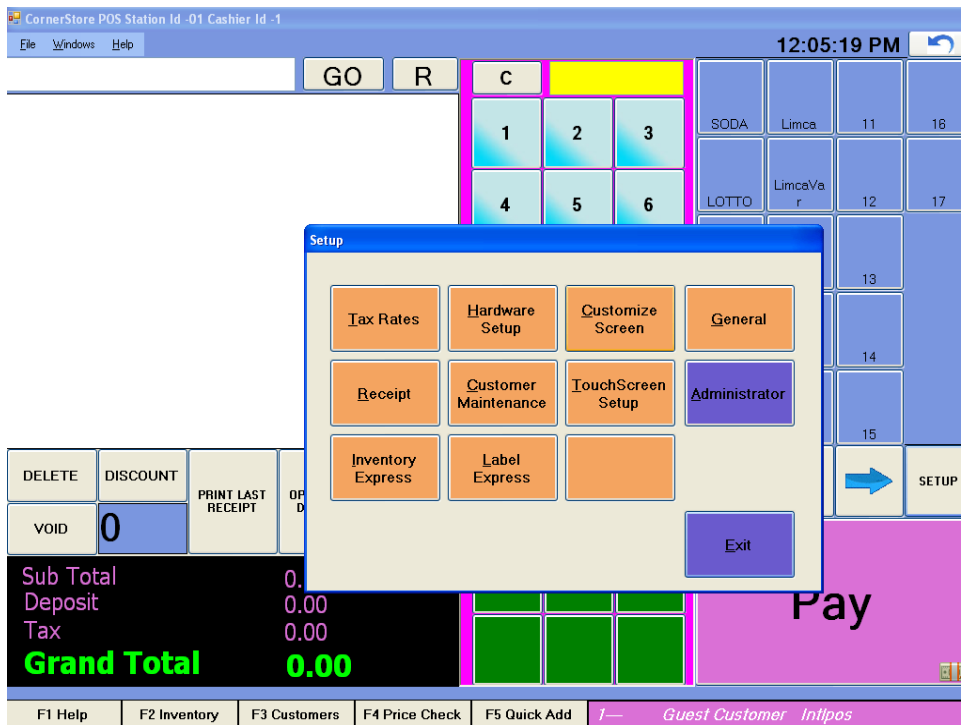

15. Select **Finish**.

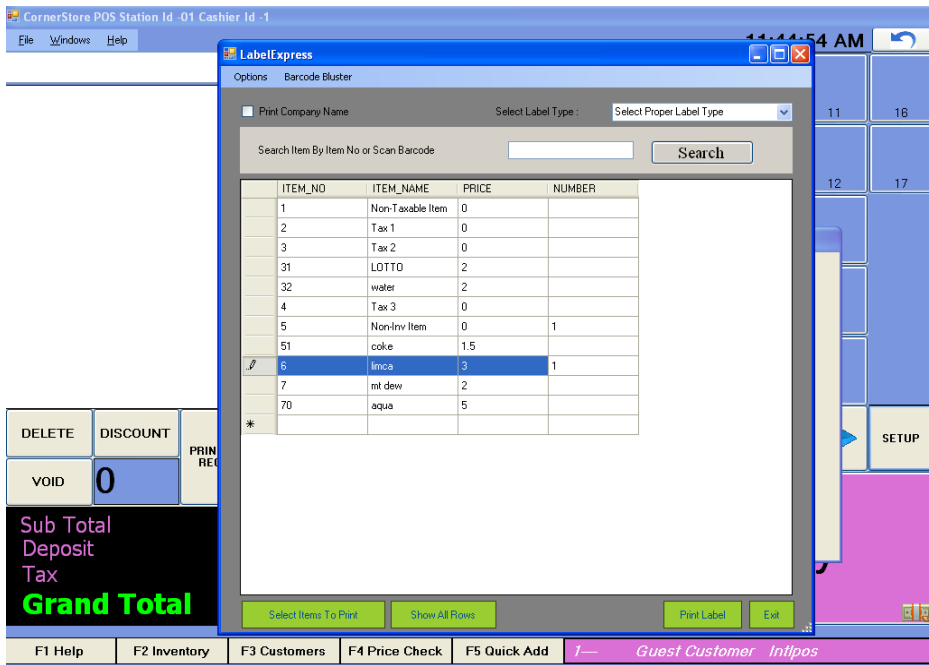

### CornerStorePOS working with the label printer:

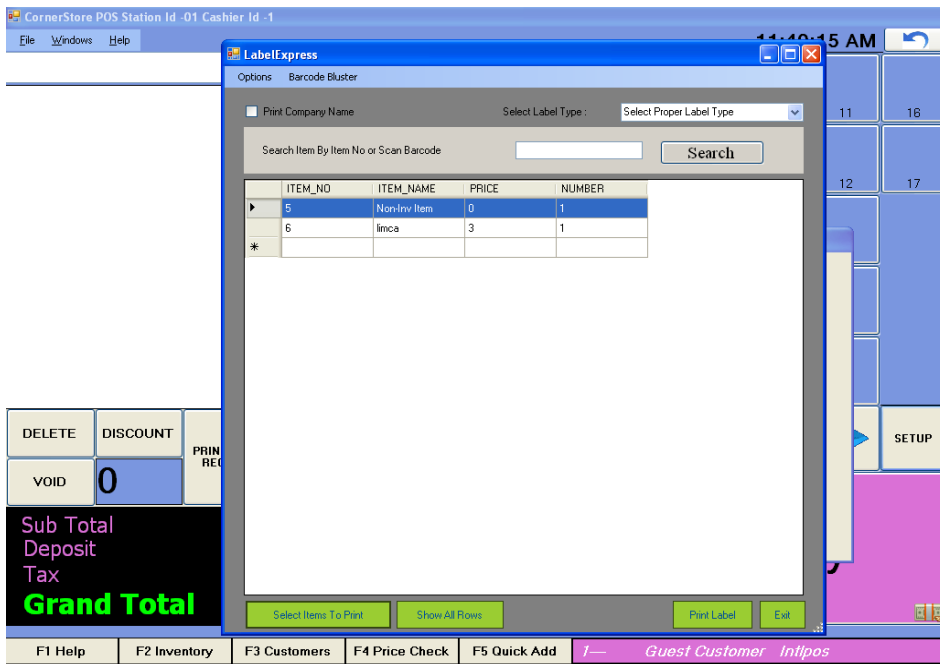

1. Open **Corner Store POS>Set Up>Label Express**

- Now, to select the items to which label has to be printed, select the item line and then select the Number column of that line and enter the number of labels to be printed. And then, click on **Select Items to print**.

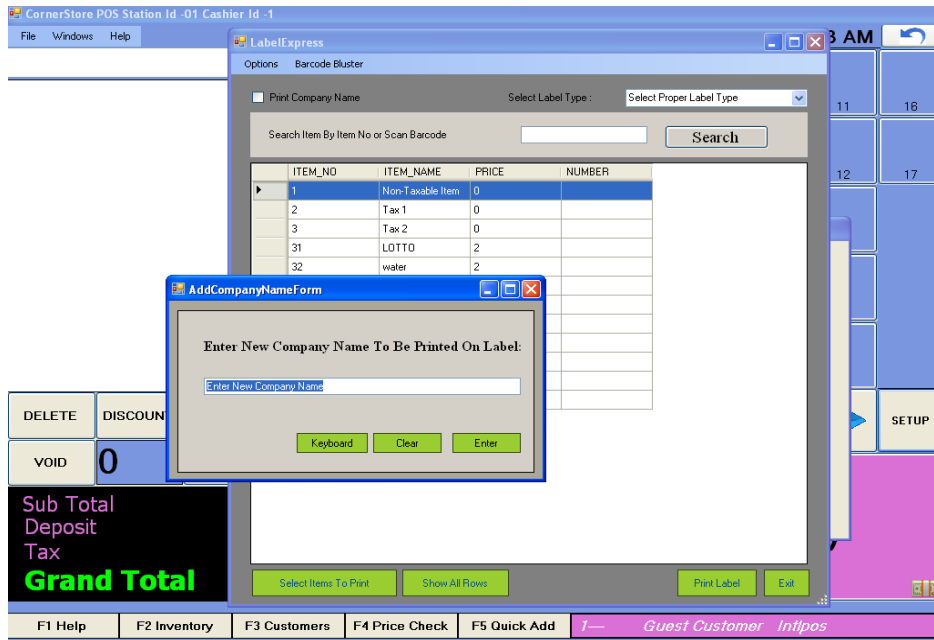

- Now, you see the list of items you have selected to print. If you sure to print these items then click on **Print Label**. And if you want to cancel these items to be printed click on **Show All Rows**.

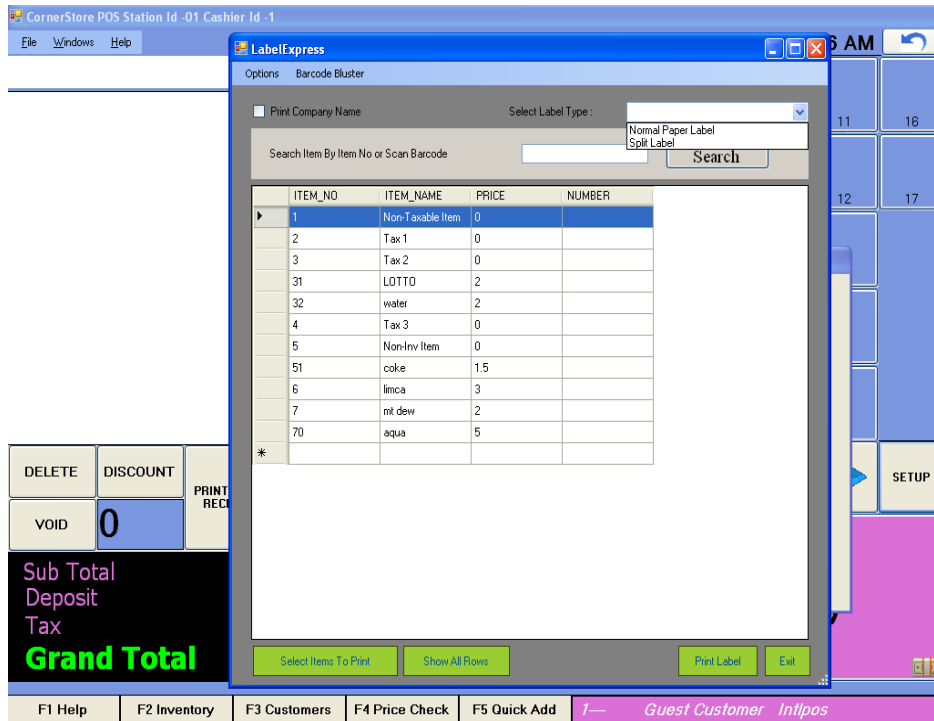

- If you wish to change the company name, then uncheck the **Print Company Name**. And then, click on **Options** menu on the top and select the **Set alternate Company Name** and then type in the company name you wish.

- To select the type of label, click on the **Select Label Type** dropdown on the left. You can select either **Normal Paper Label** or **Split Label**.

6. You can also search the item by item number or scan barcode to print the label.
